

Project 3

An Online Registration Form

Exceeds Expectations

Your project was reviewed and looks great! Take a look over your grade details to see how you can improve.

[Keep Going](#)

- [Getting Started](#)
- [Instructions](#)
- [How You'll Be Graded](#)
- [Your Grade](#)

To get a passing grade you'll need to submit a project that meets the following requirements. If your project receives a "Needs Work" rating on any of these tasks, then you'll need to edit your project and re-submit it until it "Meets" or "Exceeds" each task requirement.

	Needs Work	Meets Expectations	Exceeds Expectations
Form Structure	<ul style="list-style-type: none">• More than one <form> tag is being used.• Fieldsets and legends are not in place for both of the following sections:<ul style="list-style-type: none">◦ "Contact Information" section of the page, and◦ The "Newsletter" section of the page	<ul style="list-style-type: none">• Only one <form> tag is being used to contain all the form elements.• Fieldsets and legends have been added for each of the following sections:<ul style="list-style-type: none">◦ "Contact Information" section of the page, and◦ The "Newsletter" section of the page	<ul style="list-style-type: none">• N/A

Needs Work

Meets Expectations

Exceeds Expectations

Form fields and labels

- Does not include all of the required form fields:
 - text input
 - email input
 - telephone input
 - select menu
 - checkboxes
 - radio buttons
 - textfield
 - submit button
- Does not include labels for each form field.
- Labels are not properly associated with its form field.

- Includes all of the required form fields:
 - text input
 - email input
 - telephone input
 - select menu
 - checkboxes
 - radio buttons
 - textfield
 - submit button
- Each form field includes the following attributes:
 - *input*: has id, type and name attributes.
 - *select* and *textarea*: includes id and name attributes.
- Each form field includes a label, and each label's for attribute is associated with a unique id on its corresponding form field.

- N/A

Placeholder text

- The input field's placeholder attribute is not in place for either:
 - the Full Name field
 - the Email address field

- The input field's placeholder attribute has been used to add the text "required" to:
 - the Full Name field
 - the Email address field

- Form contains additional placeholder text for other text fields.
- Uses the required attribute to add HTML5 Validation for required fields.

Meets Expectations

Exceeds Expectations

Mobile-first

- No viewport meta tag in the head of the HTML.
- The responsive design is *not* using a true mobile-first approach, for example by relying predominantly on max-width properties in the media-queries.
- Media queries are not set to 768px for tablet to desktop screen.

- The HTML file include the viewport meta tag in the head of each document.
- A mobile-first approach is utilized using min-width properties for media queries.
- Appropriate media query is in place to match the screen size for tablet and desktop screens at 768px.

*N/A

Design and styling

- Does not match layout of mockups.
- The label is in the same position for both mobile and desktop screen sizes.
- Does not add focus states to text fields.

- Roughly matches layout of the mobile and desktop mockups. General spacing and arrangement of the elements matches the design of the mockups for:
 - Mobile
 - Desktop
- The label text position matches the mockups:
 - Above the form field for mobile.
 - To the left side of the form field for desktop.
- Uses a Google Font.
- Includes focus states for text fields.

- BOTH of the following additional styling enhancements have been added to the form:
 - Change the background color for at least ONE of the main sections of the site.
 - Uses CSS transitions for focus states.

Valid code

- When checked with a validator the HTML and/or CSS code has errors which are not accepted exceptions.

- HTML and CSS code passes the validation.
- HTML and CSS errors are accepted exceptions.

- N/A
